

Shatabdi Pavers

Placeholder Brochure

This is a placeholder brochure file. Replace it with your real company brochure PDF to make the homepage's "Download Brochure" button work as intended.

How to replace this file

1. Create your real brochure as a PDF (any design tool or even a Word/PowerPoint file exported to PDF works).
2. Name it exactly: shatabdi-pavers-brochure.pdf
3. Place it inside the brochure/ folder, replacing this file.
4. If you use a different filename, update the link in index.html (search for "Download Brochure") to match your new filename.

Suggested brochure contents

Company introduction and years of experience — product catalogue with photos, sizes, and colours for each product — strength and technical specifications — application/use-case photos — quality certifications — contact information.
